On the motion of Coun. Fox, seconded by Coun. Wilson, W. A. Chirtewas was allowed \$4.00 for labor performed in 1909, and not previously presented to the council, the same to be applied to his L. I. tax. No penalty will be levied on it.

The next meeting of the council will be held on October 1st, at the home of Wm. Fox, at 4-46-6-4, at 10 a. m.

## More Houses to Be Built

Dr. Watson and G. G. Fieldhouse Have Decided to Build at Once --Good Progress Being Made on School Building.

Good progress is being made with the school building contract. The contractors, P. D. Laird & Son, sub-let the contract for the mason work to J. Berry, who has the excavation finished, and the footings all in, while the concrete work is well under way.

E. T. Stimpson, who moved into the new cottage which he recently completed on Eighth avenue, has the excavation completed for a storey and a half dwelling which he will erect on the opposite side of the avenue.

He will begin excavating for still another on the same avenue within a few days.

C. G. Fieldhouse, of the Wainwright Lumber Co., will within a few days begin the erection of a handsome house on his Eighth street lot. He expects to have it finished by the latter part of August. In design it will be what is known as "modern colonial."

E. C. Logan is calling for tenders for the erection of a fine house on the site of the cottage at present occupied by him.

Dr. W. A. Watson has also decided to build a house this summer and is asking for tenders. The plans and specifications, of both Dr. Watson's and Mr. Logan's proposed dwellings, have been prepared by E. T. Stimpson, architect.

## Wolf Creek People Move to Edson

Edson, Alta., July 14--Monday the steel of the Grand Trunk Pacific railway main line will reach here, and as soon as possible, a regular train service will be inaugurated.

A very unique event in connection with the advent of the iron horse will be the migration to this place of a frontier town of four hundred people. The inhabitants of Wolf Creek, eight miles east of here, where the railway crosses Wolf Creek, will raise their pioneer buildings, pack their tents, gather their household goods and move in a body to Edson. This work of erecting a roundhouse, machine shops and other buildings necessary for division terminals, is in progress.

## Fine Crops From Chauvin Here

H. Revel, who is in charge of St. Thomas parish here, spent part of last week with his former parishioners at Manitou Lake. He rode back to Wainwright--a distance of about sixty-five miles--on horseback. Mr. Revel says that from Chauvin to Wainwright the crops are looking very fine, but north of there they are very light.

Bert McKee, of McKee & Headman, had his foot quite badly injured by getting it caught in a switch at Edmonton last Saturday. One bone was broken, and two toes were put out of joint. To make matters worse he had to walk considerable distances before he could get treatment. He has been getting about on crutches for the past few days, but will be able to resume his work before long.

## Summer School Has Closed

Evangelist Johnson, and Other Visiting Ministers Still Here, However, and Will Hold Special Services on Sunday.

The Methodist ministers from the Wainwright district, who have been attending the Summer School of Evangelism here, all report a wonderful inspiration. Rev. F. J. Johnson, conference evangelist, has been the moving spirit in the work. Mr. Johnson's object has been to make every minister an evangelist upon his own mission field.

The subjects that have been dealt with include: "The Power in Evangelism," "Requirements of Evangelism," "The Church at Work in Evangelism," "Personal Evangelism," "The Opportunity of Evangelism," "The Evangelistic Appeal."

All the subjects have been intensely interesting and have been followed by live discussions.

The Summer School closes today (Thursday). The sessions were at first held in a tent but owing to windy weather the tent had to be abandoned and latterly the meetings have been held in the Methodist church.

Each evening there has been an evangelistic service conducted by Evangelists Johnson and Scott with the resident pastors and the ministerial delegates assisting.

Good music was furnished by a quartet, and a solo has been rendered, a striking feature being the ministerial quartette. The audiences have gradually increased in number and the interest has deepened with each service.

While the Summer School closes on Thursday the evangelists will remain over Sunday, conducting services both morning and evening in the Methodist church.

On Sunday afternoon at 4 o'clock, Evangelist Johnson will give a special address to men only, in the Auditorium. All men of the town should hear this.

Last Sunday the services were well attended. In the morning the subject was: "The Church of the Living God." Emphasis was laid by the preacher, Rev. F. J. Johnson, upon the power the church is able to exercise.

In the afternoon the subject was "Practical Influences" when the great importance of personal evangelism and better organization was dwelt upon.

On Sunday evening Mr. Johnson spoke on the "Unpardonable Sin" or the danger of men getting beyond the reach of God. The speaker was followed with close attention throughout his address.

In addition to a selection by the choir and a solo by Mr. Scott at the close of the address a quart was sung by Mrs. Philips and Mr. Scott.

An introductory street service has been given each evening by the younger of the workers who are attending the Summer School of Evangelism.

The Wainwright Realty Co., which has a quarter section of Battle River Co. land to one of the Wainwright men, who was here a few days ago. This company have also sold several quarter sections to Scotch farmers.

Mr. Kidd, of the Battle River Land Co., will be in Wainwright, Saturday, to revise the prices on the lands which his company owns in this district.

## Principal Has Been Engaged

Mr. McLean, Who Has Been Principal at Red Deer for Some Years, Will Have Charge of Wainwright's New School.

Mr. McLean, who for several years past has been principal of the Red Deer school, has been engaged as principal of the new Wainwright school.

The arrangement with Mr. McLean was made by the members of the School Board during their visit to Edmonton last week, and it is expected that he will arrive here within a few days to sign a contract.

Mr. McLean has a splendid record as a teacher, and was highly recommended by the officers of the Department of Education. He has built up the Red Deer school from small beginnings to a ten-room school, and his students have been very successful in their matriculation exams.

The members of the School Board consider themselves exceedingly fortunate in having been able to secure the services of Mr. McLean.

Mr. McLean holds a "first-class professional certificate."

The Wainwright State, from now until the end of this year for 25 cents.

J. Johnston, of the roadmaster's office is on a holiday trip to Banter points.

E. V. Ciocken, of the U. S. P. T. department, department has been called to Winnipeg.

## Farmers' Picnic a Great Success

The "farmers' picnic" held on July 18th at Section 10-45-5, was one of the most successful gatherings ever held in the Wainwright district. Fully three hundred people were present, and all thoroughly enjoyed the day. From the Plaxton settlement there was an especially large turnout.

There were football matches, baseball matches and athletic sports of various kinds, while a good many went rowing on No. 3 lake.

A vote of thanks to the ladies for their culinary preparations was moved by Coun. J. F. Wilson and seconded by the whole crowd.

In the evening a dance, which continued until daylight, was held.

## Going Into Sheep Raising

Myers & Sorenson, the well-known horse ranchers, are going to try their hand at sheep raising. They have an old ranch about twenty miles south, which their horses turn up their noses at now, and the sheep will be turned out there. Mr. Myers will leave in a few days for Medicine Hat, to buy some sheep. He expects to get about a thousand to start with.

## Wainwright Crops Ahead of Anything in the Whole Country

"The crops around Wainwright are the best that I have seen in my whole trip," said A. H. Ihke, of Detroit, a grain crop expert, who has been touring the Canadian West in the interests of New York and Chicago grain interests.

Mr. Ihke was here last Thursday week and was driven around the district tributary to Wainwright by L. McLuhan.

The expert estimated the crop of this district at 25 bushels to the acre. His estimate of the wheat crop of Manitoba was eight bushels to the acre.

"You have evidently had plenty of rain," he said.

Mr. Ihke said that the crops at Scott and Taro were also good, but not up to the standard of this district.

L. C. Liddle, a cosmopolitan mining man, who has managed mines in South Africa, dug gold in the Klondike, and who was in Bendigo, Australia, during the famous gold rush there in '71, has by way of variety decided to locate in Alberta, and has taken up a homestead in township 46. Mr. Liddle was in Wainwright yesterday and in conversation with the Star expressed himself at being surprised that the people of this town did not make a more vigorous kick for a bridge over the Battle river. The town was losing considerable business by the absence of the bridge, he claimed.

"I live only nine miles from Wainwright, and seventeen from Irma but on account of the absence of the bridge my trading is done in Irma and there are many other people similarly situated," he said.

Several Hundred Will Leave Alpena, Mich., for Alberta Early in August

An excursion from Alpena, Mich., bringing several hundred settlers to Alberta from that state will be run west about the first of August, under the auspices of the Alberta department of publicity. The excursion is to be in charge of W. H. Moran, who has been representing the Alberta government at Alpena for some time.

Forerunners of this colony that will come from Michigan have been arriving in Alberta in Edmonton from time to time, sent west by Mr. Moran. He has now succeeded in getting together a sufficient number to run an excursion; and he will bring with a big party which will settle at various points in the province.

From far-off Mexico has come a request for a copy of the Wainwright Star.

## Meeting Friday Night

The crops in the Wainwright district are the best in the province this year, and the Board of Trade have decided to take advantage of the fact, to inaugurate a vigorous publicity and colonization campaign. In order that this district may receive its fair proportion of the settlers that are being brought into the province, ways and means of carrying on an aggressive campaign will be discussed at the meeting to be held on Friday evening in Washburn & Mills' hall, and it is particularly requested that there be a large attendance of members of the Board of Trade and the business people generally.

Wainwright is now the best town on the Grand Trunk Pacific between Winnipeg and Edmonton, and if the citizens will put their shoulders to the wheel and work untidely, it can be made a city within five years. The district is unsurpassed in the whole province. What is wanted now is to accelerate the movement of settlers in this direction.

It is proposed to organize the executive of the Board of Trade, in order that more members may be brought actively into harness.

If you are interested in the Wainwright forward movement, be sure and attend the meeting Friday night.

## STAR SHOTS

Coun. Fox thinks he can "come back." But so did Jeff.

Wheat has advanced in price, but he is no slouch when it comes to grabbing a high ball.

Thaw is making another appeal for liberty, says a head-line. Thaw! Thaw! Thaw! Have I heard that name before?

Sir Wilfrid Laurier says he has a few kicks left in him. He should give one of them to Sir Fred Borden.

As long as Mr. Crampton gets elected, it really won't matter if the other councillors are not up to the standard.

F. E. Ross is out of practice, but he is no slouch when it comes to grabbing a high ball.

Monte has cut loose from the Com. party, and joined Bourassa. The Coms. should piss him a vote of thanks.

The attendance at the Toronto aviation meet was very small. Going up in the air is no novelty to the town where Rev. J. G. Shearer, J. A. McDonald and Col. Denison live.

The Methodist orators had to abandon their tent. They did not mind getting sprinkled, but they were afraid of immersion if they remained.

#### GOON SCORES MADE

Several pretty good scores were made at the Gun Club's shoot on Friday evening last. L. McElahan surprised the bunch by breaking 22. This score gave him the gold medal. "Doc" Betts came next with 21, while E. T. Stimpson broke 20. J. Warner, last week's gold button winner, broke 18 birds, and A. Laird broke 18. Dr. Watson was well up with 17.

The scores in detail were as follows:

J. Warner, 18; M. L. Forster, 6; Doersam, 8; Dr. Betts, 21; A. Valle, 19; P. Dewar, 18; H. G. Morrison, 18; L. McElahan, 22; E. C. Buckley, 17; H. V. Fieldhouse, 13; A. Laird, 18; E. C. Logan, 14; W. J. Munson, 13; H. C. Duff, 7; E. T. Stimpson, 20; Dr. Watson, 17; W. E. Mills, 7.

#### SAYS FIGHT WAS FRAMEUP

Chicago, Ill., July 15.—More scandal regarding the Jeffries-Johnson fight was added to the famous battle of Reno today by George Little, deposed manager of the heavyweight champion, "My attorney's whom I secured at San Francisco to adjust my claims with Johnson were directly responsible for the shift in the battleground from San Francisco to Reno," declared Little tonight. "When they heard of a 'frame up' to have the fight go fifteen rounds to help the pictures they went to Governor Gillett and told him just how matters stood. Then he acted accordingly. He lost no time in having the fight phased out of the state of California.

"Although I was no party to the frame up, it didn't take me long to find out something was the matter with the match. I bet my money on Johnson and when I found out from Richard that the \$5,000 side bet made in New York had been called off by the Jeffries party I began to sit up and look things over. In all I had a little more than \$8,000 wagered on Johnson. Then the much talked of side bet was dropped, leaving me with a little more than \$3,000 upon Johnson. When my split with Jack came my attorneys got busy. They started an investigation with the result that dishonesty of the bout was uncovered.

"I've had very little experience in the fighting game but in the little time that I was mixed up in it I had my eyes opened. Dishonesty is a very mild term to connect with the fight and promoters on the coast. Nearly all matches were fixed out there. For instance, Owen Moran admitted to a fake when he confessed after the death of his opponent, Tommy McCarthy, that he agreed to let him stay fifteen rounds. The Papke-Thomas fight brought out another frame up, to say nothing of Johnson's crooked bouts with Al Kaufman and Stanley Ketchel. I've said it before and will say it again, that Johnson and Ketchel went so far as to practice the knock-out. Can you beat that for crookedness? Why Johnson and Stanley went through the knock-out stunt three or four

times one night in Willis Britz's room. They piled pillows on the floor and rehearsed it. In Johnson's fight with Kaufman, it was agreed to fake the ten rounds. Both agreed not to try to put the other out. It makes me laugh when I read that Johnson has demonstrated that a negro can be honest. He's a fine example of an honest negro. He'd doublecross his best friend."

#### CANNOT PROHIBIT PICTURES

Edmonton, July 13.—Attorney General's department has decided that no departmental action can be taken in the matter of stopping the exhibition of prize fight pictures in this province, for the reason that there is no legislation in force in this province authorizing such action on the part of the government, or providing any means for dealing with a matter of this nature. The department is prepared whenever possible to enforce existing legislation, but in this instance an order-in-council would not meet the case.

#### BURNS AND JOHNSON MAY FIGHT AGAIN

Hugh McIntosh, the Australian promoter, who came over here and won a pot of money on Jack Johnson, is going to take a fine young stable of scrappers back to Australia with him. But Mr. McIntosh is more elated with his prospect of staging a fight between Johnson and Burns than he is with the roll he won. Spicing of fight affairs, Hughie says: "I see where many of the writers are predicting that the Jeffries-Johnson championship battle will be the last big pugilistic contest that will ever be staged. Now, I differ with these critics. I not only believe that there will be many important championship battles pulled off in the near future, but that the boxing game will be on a much higher plane within the next five years.

"I believe that it will not be many months before another championship match will be consummated, with Jack Johnson and Tommy Burns as the principals.

"I am making arrangements to bring them together in London, and if my plans do not miscarry, I am sure that the contest will attract the biggest crowd in the history of pugilism, and that the gate receipts will come close to the million-dollar mark.

"I have an option of two sites in London, upon either of which a mammoth arena can be erected, and with so many millions of people to draw from, this fight would be witnessed by at least 50,000 people. There is much interest in boxing in Paris, and with so many other large cities in the immediate vicinity to draw from, my estimate of 50,000 people isn't at all out of reason.

"Tommy Burns is tickled to death at the prospect of again fighting Johnson, as he is not satisfied with the result of the Sydney fight. Tommy still believes that he can defeat the negro, and points to the wonderful battle he put up after receiving that unexpected and unlucky punch in the first round."
